## Amoeba sisters video recap microscopes answers page 1 pdf online

Most of our videos have a resource. Google Doc Showing Where Each Associated Resource is Found: you're going through the resources from the Google Doc Showing Where Each Associated Resource is Found: you're going through the resources from the Google Doc Showing Where Each Associated Resource is Found: you're going through the resources from the Google Doc Showing Where Each Associated Resource is Found: you're going through the resources from the Google Doc Showing Where Each Associated Resource is Found: you're going through the resource is Found: you're going through through through the resource is Found: you're going through t can download and use for all of your students that you will find below on this page. Scrolling alphabetically but not sure if you're looking for the same topic name we are using? It won't contain items that we sell on TpT such as our select recap handouts, annotated video script templates, or our Unlectured Series. About and Suggested Use: Our Unlectured Series is an alternative to traditional lecture and notes in class- and places more emphasis on discussion, student questioning, and student creation. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). This supports our work! NOTE: We don't always update old handouts when we update a video, but we decided to update this handout! It is very similar but with reviewing safety procedures prior to lab. If it is more than a minor typo on TpT, we can send a note to all of the TpT purchasers letting them know why we made an edit. Click a topic to expand. This is the official answer key for our website's "microscopes" handout. Note: We have updated this to include both keys---one to the original (old) student recap and one to the new (updated this to include both keys---one to the original (old) student recap and one to the original (old) student recap and one to the new (updated) student recap. Textbooks have methods to handle errata, and as edutubers, we have also looked for ways to handle this. The "microscopes" handout for students is available for free on our website www.AmoebaSisters.com/handouts and uses our Amoeba Sisters Microscopes video clip from YouTube. These usually center on one individual biology topic. Check out our incomplete dominance/codominance illustration. Note: We have not created a free handout on this topic, but we offer a resource for purchase on TpT. We also do not suggest having students annotate the template at the same time as watching the video. Where do I find them? Linked throughout this handout page next to certain topics to Teachers Pay Teachers (TpT). They feature questions that can be used as formative assessments to quickly determine what may need to be focused on in class. Many questions ask students to put concepts in their own words (and occasionally, drawings). All recap handouts are in a grid format. Suggested Recap Handout Use Ideas: We highly encourage our handouts to be used during class time (whether in-person class or virtual class). All Unlectured Series topics include an annotated video script template, a slideshow of question starters with memorable comics/illustrations for classroom discussion, and a facilitation guide. Check out our Playlist page! We do have a lot of creating going on! If you're looking for the resources that go with each video that we have, we hope #1 and #2 below help.1. We have a biology playlist of 80 videos. Amoeba Sisters Terms of use prohibit publicly posting answer keys made from our handouts. Answer Key to Nature of Science recap. This helps support our creating! We license some of our art in our Redbubble store. Old handouts can still be used with new videos as we make sure our new videos as we make sure our new videos still include the previous information. RNA video & back (2nd page) on protein synthesis video. Just think about the power of projecting this on a screen and the questions that could be asked about how this relates to the topic being studied. Or, better yet, asking students to come up with the questions. Check out our annotated video script TEMPLATE, which provides space for students to annotate, sketch their learning, identify vocab, and ask their own questions. [NOTE: You can purchase it separately above or it comes as part of the Unlectured Series below]. In addition, the template has a spacious, blank right margin for students to sketch concepts that are memorable or relevant to them. PS. Questions like: How is this comic relating to our content? Select topic recap and key: select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. These are just some examples, and these opportunities are naturally built into our Unlectured Series! We share our individual comics and GIFs to start up discussions like these, and please feel free to use them---provided you follow our terms of use. As creators, we hope to continue to keep getting better, which means we do redo videos as our art and audio improves. We find the handouts are useful for discussion starters and exit tickets during class-time. If you need students to write on these handouts digitally (as they are PDFs), here are some suggestions. If you need student recap handouts are downloadable on this page. All of our videos are completely free. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). This supports our work! The video details for this video include links for further reading suggestions from several peerreviewed sources which can help address the many myths that exist about vaccines. Front (1st page) focuses on DNA vs. Occasionally, we'll update old video handouts. Our template provides space for students to annotate, sketch their learning identify vocab, and ask their own questions. Resources on this page are listed by topic in alphabetical order under the purple terms of use box---scroll down just a little bit more. Select recaps are different from the FREE recaps only because they include their own answer key and tend to focus on a more specialized topic. Would you prefer to search by suggested sequence? UPDATED DNA vs RNA and Protein Synthesis Recap - Amoeba Sisters PDFFile Size: 445 kbFile Type: pdfDownload File prefer old handout? Or use purchase orders? Check out the new TpT for Schools. Answer keys may not be distributed, reproduced, or sold by any individual or outside entity. No form of this handout or its copyrighted text can be made available publicly online or distributed publicly in print. Topic is part of our Unlectured Series! Check out our protein structure GIF!Note: We have not created a free handout on this topic, but we offer a resource for purchase on TpT. Our videos and resources are designed to specifically focus on and support biology TEKS (Texas standards), but there is often standard overlap in many locations. Prokaryotic vs. We think it's important for students to know everyone starts as a beginner! If we redo a video, we usually will place the newer version video link on this page and then still keep a link to the old video too. Standards this can support? Here is some information about how we handle different types of these issues in our videos. Regarding our handouts/resources---if it is a free resource, we can make edits on this page. OLD DNA vs. If handouts are assigned outside of in-person/virtual class time, you can lose some of those above points. We have 18 topics total in our 1st series that can be purchased individually or bundled together. We have started to offer body system topics for our second series: see our full Unlectured Series listing of both the 1st series and growing 2nd series here. Video companions often work with our few videos that have a "pause" feature. UPDATED Mutations Recap by Amoeba Sisters- Amoeba Sisters PDFFile Size: 469 kbFile Type: pdfDownload File prefer OLd handout? Click the above buttons to see these dubbed channels! If you subscribe to them, you can be notified as we continue to release!We also continue to add more translated subtitles in all languages from our community! Want to learn more or help us? More about that here. If the topic offers a FREE student recap handout, you will see a button that says "Recap- Amoeba Sisters PDF." All of our FREE resources are hosted on this page; we like to avoid double posting our free items to other locations. Note: Select recap handouts are under the "TpT" column for certain topics on this page --or see all select recap handouts here. The front (1st page) focuses on the DNA vs. While these "absolute statements" do not seem to involve edu videos on YouTube (yet), we believe the effectiveness of edu videos ALSO depends on how they are used so we made a video with some suggestions! eukaryotic cells. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). This supports our work! Check out our related comics and gel electrophoresis GIF!Note: We have mot created a free handout on this topic, but we offer a resource for purchase on TpT. Eukaryotic Cells Recap- Amoeba Sisters PDFFile Size: 370 kbFile Type: pdfDownload File We have many cell comics, but this is one of our favorites on this topic. Standards this can support? Answer keys offer convenience, and they also can be useful if you are new to the content. No, not all of our videos have an accompanying resource. What is TpT? Teachers Pay Teachers (TpT) allows teacher creators to be able to financially support themselves for their work which allows us to continue our creating! TpT contains all kinds of amazing resources (in all content areas PK-12!) created by many who are, or have been, in the classroom. If you ever find a typo or problem with our key, please let us know! We want to fix it and then give you a new replacement copy. Terms and Conditions of Use for Amoeba Sisters Answer Keys:This answer key is intended for educator use. While we don't have any handouts on this topic at this time, check out our related illustration! P.S. Click above graphic to see our blog post on this topic at this time, check out our related illustration! P.S. Click above graphic to see our blog post on this topic at this time, check out our related illustration! P.S. Click above graphic to see our blog post on this topic. posting our free student handouts on TpT. As mentioned in product descriptions, please don't purchase a key without first making sure you have determined that it's an ideal fit for your classroom). We offer a few "select handouts" that are not free unlike our regular recap handouts. Sometimes we will get helpful feedback for a video that we should add a clarification or that something was mispronounced. Take our comic here about an enzyme (one of our many enzyme comics). Please verify that you (1) can access the free YouTube video that this content corresponds to and (2) that you already have the free student handout from our website downloaded that this key corresponds to before purchasing this key. You will need to scroll down about a third of the way down on this page underneath the purple "terms of use" box to see where the topics (alphabetical listing) start. Mega Genetics Review covers how to do many different types of Punnett square problems. However, they are only useful during the video when the video is paused. We have created so many comics and GIFs now on so many of our video topics, and we think they are so powerful in the classroom. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). This supports our work! Note: These concepts are already covered in our "Cells" video and resources- but this shorter video isolates prokaryotic vs. Check out our protein synthesis comics and GIFs! Topic is part of our Unlectured Series! We have 2 review videos!1. Stroll Through the Playlist (a Biology review) video covers many general biology concepts. If you want your students to write on PDFs, please visit here.3. The first PDF in the folder reminds about terms of use AND addresses some of the main questions we get regarding our free handouts.4. You can still scroll down on this page to see each alphabetized topic where we have more items such as our comics, GIFs, and our TpT resources for each topic on this page. We want to make sure to model to students that we all make mistakes, and that it is not only important to fix them---but to grow from them too. Old handout remains available underneath the new one. We do tend to add a new video to it every 1-2 months, and when we do, we place it in the playlist sequence where we find it fits best. Learning Playlist of All Biology Videos (our videos are always free) in Suggested Sequence: . Topic is part of our Unlectured Series! How to Read a Codon Chart Video Companion handout instead of a recap handout. If you've never used our resources before, we highly recommend scrolling down on this page by topic first as the folder will be overwhelming otherwise. Most of our free handouts (44 of them) have official keys that we offer on TpT to help support our work. You can see a listing of our videos with applicable resources here. 2. We love specialty coffees, and we figure that if we can set EACH answer key price at- or a bit less than- what you may spend on 1 specialty coffee drink, then this seems reasonable to us as the video and corresponding student handout are already free. Click here to access our old "Prokaryotes" video! It will remain up. The template has a spacious right margin for students to sketch concepts that are memorable or relevant to them. It is important to note that these templates are not the same thing as the video captions that play in real time (available for all of our videos in YouTube) as they have been edited for better annotation ability. P.S. Did you know we made a short video on how to read a codon chart? P.S. The above video is a intro to science video. See our lab safety posters here. When they're used as quick formative checks with a few grid boxes a time during actual class time, you are (1) able to ensure that the responses you receive are from the student that responded (2) you can assist students for that just-in-time assistance they need, and (3) you can adjust teaching due to reading responses. What's the difference? The suggested use and purpose is a little bit different. They are arranged in our suggested sequence so they are numbered in the order we would encourage for a biology class. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). This supports our work! Free Video On TpT For this video, we offer an annotated video script TEMPLATE. Our template provides space for students to annotate, sketch their learning, identify vocab, and ask their own questions. Coming soon! \*This covers an advanced topic of how cells can still produce ATP even when oxygen is limited. Note: As mentioned in product description, the offered key on TpT goes to the new handout. All of our Unlectured Series topics already include an annotated video script template with them as that is an important component of the Unlectured Series Resource. Our Unlectured Series! The Unlectured Series is designed to be an alternative to traditional lecture/notes and encourages student questioning, discussion, and student creation. Select Topic Recap and Key: select recap handouts are styled like our free recap handouts, but they tend to cover more detailed/less standard topics. (And of course, our main biology videos linked in #1 above are always free) What we sell on Teachers Pay Teachers (TpT):TpT is a platform we love as it allows teacher creators to support their work! TpT is free to join. As outlined on all product pages, purchased TpT resources cannot be made available publicly online. Eukaryotic Cells. These make great end of class activities that can then be reviewed together the next class day as a refresher. Wondering which topic name to search for? NOTE: We don't always update old handouts when we update a video, but we decided to update this handout! It is very similar but with updated drawings and a few extra questions. For this video, we offer our annotated video script TEMPLATE. Then they can be worked on after the video is done. Also, check out our prokaryotic vs eukaryotes and E accompanying keys). This supports our work! Amoeba Sisters Terms of Use Reminder: Terms of use prohibit publicly posting answer keys made from our handouts. FREE and select recap handouts use video cartoons (drawn by Petunia) to help students connect to the content after viewing one of our short videos. Check out our page on this here! When these handouts are used in-class (and that can be virtually or in-person) as quick formative checks, you are (1) able to ensure that the responses you receive are from the student that handed it to you, (2) you can assist students for that just-in-time assistance they need, and (3) you can adjust teaching due to reading responses. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). To complement our two mega review videos (longer videos we created), we offer two longer video companion handouts. We offer annotated video script templates for some videos. Our videos are FREE! Subscribing to our channel is also free and would make us the HAPPIEST of amoebas! Please subscribe to our YouTube channel? Reminder: Terms of use prohibit publicly posting answer keys made from our handouts. Stroll Through the Playlist (a Biology Review)" video. What kind of environmental conditions could actually denature an enzyme? If this was reality, would all enzyme "customers" have the same request? They can also be built into class discussion. We think it's VERY important to bring this up despite not receiving this question yet. They have an annotation key asking students to (1) highlight key information that is new to them, (2) highlight key information that is new to them, (3) come up with their own questions, and (4) underline vocabulary. Even if your school doesn't have a TpT for Schools account, it is possible to purchase something on TPT with a school purchase order. Can I just get one mega bundle of everything you have on TpT? We've been asked this more frequently now, and we've found a way to do this. Option 1) We do have a mega TpT bundle for all resources up to a certain date. Option 2) Contact us and tell us all the items that you would like in a custom bundle. But we know many students have the misconception that "scientific theories turn into laws with enough evidence" or that a scientific theory is "just a theory." We have a separate video that can help with these misconceptions- scroll down under the topic "theories." Nature of Science Recap- Amoeba Sisters PDFFile Size: 384 kbFile Type: pdfDownload File Check out our Nature of Science related illustrations, including this infocomic mentioning experimental design vocab. We offer them individually or in one mega key bundle. Our resources are a tool- and like any tool- effectiveness is based greatly on how it is used. Please see our "suggested use" information below for some helpful tips! Annotated Video Script TEMPLATES What are the recap handouts? Those items are linked on this page to TpT to help support our work. 2. This dropbox folder is a view-only folder which will allow you to download the PDFs that are already listed individually on this page. They have an annotation key asking students to (1) highlight foundation parts of the transcript that they already knew (which can be built upon), (2) highlight information that is new to them, (3) come up with their own questions, and (4) underline vocabulary. Check out our endosymbiotic theory comic! Note: We have not created any free handouts on this topic, but we offer a resource for purchase on TpT. Curious about standards our videos can help support? There is not an active key to this old handout. Regarding the free recaps we have on this page; if you don't want to individually download the free recaps from this page, we have a view-only (which allows you to download) dropbox folder of the 45 free PDF handouts [as of August 2021] that come from this page!!Important Things to Know About This Folder:1. This dropbox folder contains our free recap handouts. RNA comic and RNA types GIF! Answer Key to DNA vs. What are video companions? Unlike the recap handouts and annotated video script templates---which are designed to only be used after students watch the video. Check out more info near the top of our page where we talk about suggested use. RNA video and the back (2nd page) focuses on the protein synthesis video. This allows one handout to serve as a series of exit tickets, and it can provide an opportunity to give feedback to students (and address misconceptions). We have GIFs and comics, which you are welcome to use in your presentations---provided that you follow the terms of use (which includes that they cannot be put in items that you sell nor can they be edited in any form). Our YouTube Shorts playlist which contains biology topic related videos that are under 60 seconds. This is an editing on our copyrighted work (and a disservice to teachers and students using them). Video companions may resemble questions similar to a recap handout (such as the codon chart video companion) or utilize a script similiar to the annotated video script template (such as the review video companion). Suggested Use for Video Companions: We highly suggest giving students access to these during the video, but it should be emphasized that they are not to be completed while the video is playing unless using the pause feature [the video will suggest when to pause] is used. They contain an informal version of our video script with slight improvements to define sentences and remove filler words to help with annotating. You can subscribe to our YouTube channel to be notified when we release new videos. (Please see our terms of use which outline their use as they can't be sold and answer keys made using them cannot be publicly available online, as this is a disservice to both teachers and students.) Our handouts are designed in a grid format so that 1-2 of the "boxes" can be used as an exit ticket in those last 5 minutes of class. See our cell cycle GIF!Note: We have not created a free handout on this topic, but we offer resources for purchase on TpT. Standards this can support? Texas teachers, we list TEKS that can be supported here. RNA and Protein Synthesis Recap - Amoeba Sisters PDFFile Size: 647 kbFile Type: pdfDownload File Check out our playlist page for assistance! Standards this can support? However, we want to emphasize that our videos and resources cannot be all inclusive of any standard, because we believe a strong lab foundation, student questioning, and discussion in the course is critical to fully addressing science standards. Standards this can support? We license some of our art for our Redbubble store, and we have our study tips poster here For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). RNA and Protein Synthesis recap. While we plan to always have free resources available (and, of course, our videos are always free) as this is part of our mission, we greatly appreciate the support from those that purchase items that we offer exclusively on TpT. So I need a TpT account to purchase items on TpT?Yes, you need an account so you can access the resource at any time. We consider many factors in pricing our keys: time spent answering questions, whether we had to add additional images or labels (we draw all of our own pictures), etc. Science helps develop scientific theories and laws. Keys can offer convenience as well as be helpful if you are new to the content. The review companion is especially lengthy as it reviews many videos, so this would be over a period of multiple days. Where do I find them? We only have 3 currently, because these are only created when there is a video that specifically uses a pause feature as mentioned above. Each topic has a portion devoted to, "Why does this content matter?" and an opportunity for students to use their foundation knowledge to create a product. See a detailed Q&A on their use and reviews on our Unlectured page. Where do I find the Unlectured Series Topics? Topics? are linked individually on this page next to certain topics to Teachers Pay Teachers (TpT), but we recommend viewing our Unlectured page where they are all grouped together. RNA and Protein Synthesis Recap - Amoeba Sisters PDFFile Size: 647 kbFile Type: pdfDownload File \*Note: Handout covers 2 separate videos. It is free to make an account on TpT. Here is their general sign-up page for a personal account: www.teacherspayteachers.com/SignupCan my school make a TpT account? [Specifically, they work with videos where students are asked to pause the video to reflect on a question]. Select topic recap and key: Select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. Click to expand. This would make us unable to support our work. You will find answer keys in bundles, which are discounted from buying them individually scientific use of the word "theory" comic. Visit our playlist page for a work-in-progress listing of applicable TEKS and NGSS standards that our videos can help support? Check out our playlist page for assistance! Check out our PCR GIF (you'll find it about mid-way on our GIF page) next to the gel electrophoresis GIF! On TpT Select topic recap handouts, but they tend to cover more detailed/less standard topics. Public availability of Amoeba Sisters answer keys is a violation of copyright, and it is also a disservice to other educators who wish to use our activities. It is our goal that our videos are free as well as our free student video recap handouts from our website (with the exception of "select handouts" available only on TPT). OLD Prokaryote Recap - Amoeba Sisters PDFFile Size: 437 kbFile Type: pdfDownload File Answer Key to Prokaryotic vs. We have a Google Doc that shows the videos in order from the playlist and then indicates where to look on this handout page (which has an alphabetical listing) to find the resources associated with each video. Or, you can see all templates together here. P.S. All of our Unlectured Series together here. resources, because we want students to see this journey. We do offer official Amoeba Sisters answer keys (linked on this website to Teachers-TPT) which also have these same terms. We allow our images and GIFs to be shared on presentations and social media provided they are not edited and that they are not used for financial gain (i.e. our images or GIFs can't be in/on an item that you sell). Learn more about our terms of use here. OLD Mutations Recap - Amoeba Sisters PDFFile Size: 602 kbFile Type: pdfDownload File Check out our mutation graphics and GIFs! Answer Key to Mutations recap. Note: We have updated this to include both keys---one to the original (old) student recap and one to the new (updated) student recap. Updated handout is below, and just like the old handout, it focuses on two videos script templates contain an informal version of our video script with slight improvements to define sentences and remove filler words to help with annotating. Below is our old handout as well. Select handouts come with their own answer keys. While they are styled just like our regular free handouts in the grid format for exit ticket use, they tend to cover more detailed/less standard topics. This supports our creating! Select topic recap and key: select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. You will find one of them under the topic category "Codon Chart" and the other two under the topic category "Codon Chart" and keys made from our handout content as this is a modification of our published content (and a disservice to other teachers and students using them). To find it, look under the topic on this page "Codon Charts." :) NOTE: We don't always update old handouts when we update a video, but we decided to update this handout! It is very similar but with updated drawings and a few extra questions. By purchasing our answer key for less than the price of a typical specialty coffee drink, you are helping fund our passion in creating science videos, GIFs, comics, handouts, and more! We thank you for your support and for watching our videos! We try our best to screen for all typos in our answer keys, but we are amoebas (er, human). Lab Safety Recap- Amoeba Sisters PDFFile Size: 395 kbFile Type: pdfDownload File Check out our lab safety reminders comic here We license some of our art for our Redbubble store. Amoeba Sisters Terms of Use Reminder: Terms of use prohibit publicly posting answer keys made from our handouts. Scrolling alphabetically but not sure if you're looking for the same topic name we are using? Check out our fermentation, but we offer a resource for purchase on TpT. RNA video & back (2nd page) on protein synthesis video. Also, the old protein synthesis video still exists if preferred. If it's on TpT, we can update it directly on there. We strive to be lifelong learners and to share our learning like this (on Twitter)! We have run into the occasional typo or grammatical error. OLD DNA vs. This allows schools to purchase orders. Visit here. Texas teachers, we list TEKS that can be supported here.
